

Environmental responsibility is built into every stage of our operation. Through innovative manufacturing, on-site recycling, and detailed carbon reporting, we give customers full transparency and minimise our environmental impact.

At Trojan, corporate social responsibility centres on two pillars – our people and our planet – in partnership with the British Safety Council. We invest in our people's development, safety, and wellbeing, creating a positive, ethical workplace where our team can thrive.

#### Valuing People and Planet

Trojan's legacy of innovation meets our commitment to compassionate design. Every product undergoes rigorous testing to ensure reliability, durability, and user-centric performance – delivering confidence and comfort to every customer.

We continually invest in new designs, plant and equipment to keep moving forward and in an ever-evolving, fiercely dynamic and competitive global market.

#### Our Commitment to Quality

Operating from four sites across Yorkshire, each of our production facilities has its own dedicated space ensuring every product is manufactured to the highest standard.

From small beginnings in 1975, Trojan has become one of the largest manufacturers of acrylic baths in Europe, with a reputation for manufacturing high quality products.

#### Delivering the Best in British Manufacturing

## Bathe Easy:

## Where Accessibility Meets Elegance

At Trojan, we believe bathing is more than a daily routine – it's a moment of personal comfort, independence, and dignity.

Our Bathe Easy range is meticulously designed to transform bathroom experiences for individuals of all ages and abilities, eliminating barriers and restoring confidence.

#### Accessible by Design

Bathe Easy is where accessibility meets elegance. We know that physical limitations shouldn't mean compromising on style or safety. Our innovative designs seamlessly blend functional accessibility with contemporary bathroom aesthetics, ensuring your space remains both practical and beautiful.

#### Engineered for Comfort

Every Bathe Easy product is crafted with a deep understanding of diverse mobility needs. From walk-in showers and low-entry threshold baths to supportive handrails and accessories, each product and its features are thoughtfully integrated to provide security without feeling institutional.

#### Independence Redefined

Our solutions empower individuals to maintain their independence. Whether you're supporting an aging parent, managing a personal mobility challenge, or planning for future adaptability, Bathe Easy offers solutions that respect individual dignity.

Managing Director  
*David*

## The over-65 population

where mobility needs are more common, is projected to grow by 40% to 17.7 million by 2040, representing a significant expansion of the accessible products market.

## Over 14.6 million people

in the UK reported a disability in 2021 – approximately 22% of the population, with numbers growing year-on-year since 2013.

## 83% of people with disabilities

acquire them during their working lives rather than being born with them, indicating a growing need for adaptive solutions as the population ages.

## Did you Know?

## Almost 45% of pension-age adults (65+)

report having a disability that impacts daily activities, highlighting the growing need for accessible home modifications.
